

## **5. Maintain Readiness of Heart** (April 29<sup>th</sup> 2011 Historic Vigil)

Prophet Dr. Owuor

Halleluyah. What a mighty moment; again for those who may have just joined us, I want to repeat this very important vision of the LORD before we continue. I spoke very clearly about the vision of April 27<sup>th</sup> 2011 and I said in that tremendous visitation of the LORD all of a sudden I found myself, I found myself in a place where I was preaching and as I was preaching there, there were many ushers that were helping people to get into the meeting. And as I continued preaching the LORD spoke with me by voice and said that I should tell the ushers to go get seated and partake of this message.

After that, the ushers went and sat. But after they had sat on my right hand side I see some two others that are still standing, I guess they are looking for seats and on my left hand side, I see one who is still standing there. I could identify clearly which country I was in and what people they were and the meeting itself I can identify. And so when the ushers had just sat, when they had just sat and then I continued announcing the Coming of the Messiah, and then at that time, immediately the rapture took place and I saw a lot of people in big shock because the rapture had taken some people.

But the people that the rapture had taken were very glorious in their countenance and that can only tell me that actually the Word had accomplished its purpose in their lives and that can only tell me that actually the Holy Spirit had had His way in their hearts. But as they went I saw them flying past the clouds and that was very dramatic to see them over the clouds and moving very fast like it would be a rocket and then when they met the LORD in the sky, they entered into the Glory of God. And then a big cloud came and covered that entrance, closed it. And I know that that cloud that closes it is the cloud that spells the season of closed Heaven over the earth.

But at the same time when I now look down, I see so many Christians that had failed to make it into the Wedding of the Lamb. And there was a lot of distress, a lot of wailing and mourning including all kinds of agony because it was very difficult to explain, they did not know how to explain what had happened.

Precious people and I saw the appearance of those who missed the rapture of the church. Another part of this vision, let me release this also, I saw those who did not make it; before the rapture I saw them. I saw them trying very, very hard to make it. But they could not make it. They struggled and still they did not make it.

But anyhow for those who entered, it was Glory and the Wedding Supper of the Lamb. And those who failed to make it, it was doom that was spelt on that day. And that's why this is what I want to highlight; that **in everything you do, please ensure that you maintain a readiness in your heart.**

The Bible tells us nobody knows the day or the hour of the Messiah's return even the angels in Heaven and the Son of Man Himself. And that's why you see now, the releasing now of such precious details that the LORD lavished me with on that 27<sup>th</sup> April 2011 it actually speaks a lot of love that God has to the church of Christ because I can see the meeting, I can identify the place once I encounter it.

Precious people, this is a very critical time now in the Church of Christ and we see that the LORD says that when that happens in that place it will be day time; I will be having a meeting in the day time in that part of the world. But isn't it very disturbing at times for those who are not ready that most recently the LORD showed me the Garment; the Glorious, the White Glorious Garment as in that is what is needed for entry into the Kingdom of God. And then after a short while, now He shows me the rapture of the church.

Prepare the Way for the Coming of the Messiah. The Messiah is coming; I have seen His Coming. I have seen the Messiah Coming, prepare the Way in your hearts in absolute holiness and ensure that in your lives you live a life that is in the fear of the LORD. That is wisdom; the wisdom of the kind that the wise virgins had.

Precious listeners at this time in the history of the church there isn't even much time to debate what. But the most important thing that the church can do today is to rush out to the perishing world and introduce them to Jesus before it's too late. Precious listeners, I have seen the Coming of the Messiah; I have seen the rapture of the church; I have seen the church been taken away. Prepare the way the LORD is Coming.

What a blessed time here; and now the final Scripture that I would like to read in the Book of Galatians chapter 3 verse 26. And you see very clearly the LORD says that *"You are all sons of God through faith in Christ Jesus, for all of you who were baptized into Christ have clothed yourselves with Christ. There is neither Jew nor Greek, slave nor free, male nor female, for you are all one in Christ Jesus."*

Precious people, those that are in the unity of the faith are these ones here because their common denominator is the righteousness of the LORD. And the race will not matter; the color of their skin will not matter; tribe will not matter; nationality will not matter. That is the miracle of this Garment that the LORD showed me.

Blessed is the nation whose tribes are preparing for the Glorious Coming of the LORD. Blessed is that nation whose God is Jehovah and whose communities are all preparing the same one Glorious Garment. And especially now I am very surprised that I will be preaching on that day at that very instant also. So that's amazing. Again I bless the LORD so much for loving the nation of Kenya. But we have many other nations that are longing to be given even a single chance. And so you can see the great privilege of the teachings, the *keshas* and the preachings that have taken place in this land.

The LORD God Almighty He has commanded repentance that we may prepare the way for the Coming of the LORD; the God of Heaven, He has loved the church and lavished her with the secrets of Heaven about the Coming of the Messiah.
